(3) The Commission may refuse to issue a licence where the applicant has been convicted of an offence under this Act within the twelve months immediately preceding his application and the Commission is satisfied that it would not be in the public interest to issue a licence to him.

(4) The Commission shall, before refusing to issue a licence, afford the applicant for the licence or his representative a full and ample opportunity to be heard in relation to the application.

(c) qu'il est financièrement capable de poursuivre l'exploitation de l'élévateur qu'il se propose d'exploiter et qu'il a donné sous forme de cautionnement, d'assurance ou sous une autre forme une garantie suffisante pour assurer le respect de tous les engagements envers les détenteurs de documents, relatifs au versement de fonds ou à la livraison de grains, établis par le requérant en application de la présente loi.

(3) La Commission peut refuser de délivrer un permis lorsque le requérant a été déclaré coupable d'une infraction prévue par la présente loi dans les douze mois qui précèdent immédiatement sa demande et que la Commission est convaincue qu'il ne serait pas d'intérêt public de lui délivrer un permis.

(4) La Commission doit, avant de refuser de délivrer un permis, donner au requérant du permis ou à son représentant la plus large possibilité d'être entendu au sujet de la demande.

(5) Tout refus de délivrance d'un permis doit être fait par arrêté de la Commission.

NOTE: In most instances where a grain company operates two or more primary elevators at one location, the operations have been combined under a single manager. This has been aided by the trading of elevators between companies. As a result of a move towards greater economy and efficiency, the 1,860 elevators individually licensed as at August 1, 1986 reflect only 1,768 'operating units'. The above table indicates this pattern, according to the major companies. The bracketed figures indicate the licensed separate units. It should be recognized that this statement reflects a constantly changing situation and is based upon the latest available data.

NOTA: Dans la plupart des cas, lorsqu'une compagnie de grain exploite deux silos primaires ou plus au même endroit, les exploitations ont été combinées et relèvent d'un seul directeur. L'échange de silos entre compagnies a favorisé cette politique. En vue d'accroître les advantages économiques et l'efficacité des opérations, les 1,860 silos agréés séparément au 1er août 1986 représentent seulement 1,768 'unités d'exploitation'. Le tableau ci-dessus indique ce mode de développement pour les compagnies les plus considérables. Les chiffres entre parenthèses indiquent les unités distinctes agréés. Il faut se rappeler que c'est une situation qui évolue sans cesse et qui est fondée sur les plus récentes données disponibles.

"Decrease" In The Number of Primary Elevator Licences"
Effective the 1984-85 crop year the Canadian Grain Commission allowed operators of primary elevators to licence two or more adjacent facilities, which were under the control of a single manager, as a single primary elevator.

As a result of this policy and the continued rationalization of the primary elevator system, the number of licences issued declined dramatically, going from 2,800 in 1983-84 to 1,967 on August 1, 1984.

Dimunition du nombre de permis de silos primaires
Dès le début de la campagne agricole 1984-1985, la Commission canadienne des grains accepta d'émettre un seul permis aux exploitants de deux silos au plus lorsque ces silos sont gérés par une seule personne et qu'ils sont attenants.

Suite à cette nouvelle politique et à la consolidation du système de silos primaires, le nombre de silos agréés passa depuis 2,800 pendant la campagne 1983-1984 à 1,967 silos au 1er août 1984.
